

Valmont Industries, Inc. is a diversified global manufacturer of steel fabricated products, street lighting and traffic signal poles, communications and electrical transmission structures, irrigation systems and product coatings.

Valmont Structures is the leading supplier of engineered support structures in North America. We primarily serve the commercial and roadway markets for lighting and traffic control structures. We provide a professionally engineered design, crafted with the industry's highest level of quality, delivered on time, and fully supported after the sale. Crucial to our success are the high quality of our distribution channels, our ability to innovate and manage costs in our factories, and the passion and integrity of our employees.

Valmont Structures currently has a Production Supervisor position in Brenham, Texas. For successful performance in this position, the incumbent should possess superb leadership abilities. A team oriented individual with the ability to prioritize and problem solve is a must. This individual should also possess strong machining background, along with some knowledge of fabrication, welding, assembly, maintenance and willing to work off shifts as necessary. We are in search of a leader to manage assigned hourly employees and continuously improve the manufacturing processes.

Essential Responsibilities:

- Lead a team of welders and employees to safely produce quality product on time for your customers
- Participate in LEAN initiative and use 6 sigma tools for process improvements
- Develop and implement process improvements to reduce costs and cycles
- Bring new ideas and positive support to the current process
- Maintains a safe working environment
- Provides formal and informal reporting on plant performance & issues to ensure the manufacturing plan is executed in a manner that meets or exceeds quality & cost objectives
- Ensures that Quality system is followed
- Strong oral and written communication skills
- Manage all aspects of time, vacation and discipline

Qualifications/Requirements:

- Bachelor's Degree from an accredited university or college; engineering preferred
- 3-5 years manufacturing supervisory experience
- Knowledge of fabrication, welding, assembly and maintenance
- Lean methodology experience
- Proficient with Microsoft Office Products
- 1-3 years project management experience

Our employees enjoy a comprehensive salary and benefits package that includes medical/dental, disability, paid vacation, and tuition reimbursement.

Any offer of employment is conditioned upon the successful completion of a background investigation and drug screen.

We are an Equal Opportunity Employer; Valmont is committed to workplace diversity.
